WORK EXPERIENCE

Delivery Hero

Senior UX Writer

Berlin, Germany

April 2023 – Present

- **AI Content Automation:** Led the end-to-end development of an AI-powered Figma plugin to automate microcopy generation across the Rider product line, delivering the project 3 weeks ahead of schedule.
- **Internal Tools & Systems:** Architected internal tools that scaled content expertise to 11 squads, reducing content-related delays by 80% and saving 2,000 hours annually
- **Mentorship & Leadership:** Acted as a mentor to designers and product managers, strengthening technical literacy and promoting scalable methodologies for designing with AI.
- **Strategic Problem Solver:** Resolved systemic communication flaws by replacing manual rider calling with an Interactive Voice Response (IVR) system, managing 15,000 daily calls with a 100% success rate
- **Design Systems & UI Craft:** Write and edit clear, concise, and consistent copy for a wide array of user interface components, ranging from fundamental buttons and form fields to complex error states and tooltips.
- **Evidence-Based Iteration:** Lead user research and usability testing to decode user needs and behaviours, utilising qualitative and quantitative insights to refine the clarity, tone, and strategic effectiveness of all product copy.
- **Ethical & Inclusive Design:** Championed ethical conversational pathing to manage high-stress safety/payment crises, ensuring language supported user trust and safety
- **Operational Governance:** Architect and maintain comprehensive style guides, voice and tone frameworks, and systemic documentation to ensure global coherence across every user touchpoint.
- **Collaborative Strategy:** Partner in design reviews and cross-functional critiques to provide high-level feedback on design concepts and advocate for the role of content in enhancing the overall user experience.
- **Cross-Functional Execution:** Collaborate with designers, engineers, and product managers to deliver effective, user-centred copy that balances business objectives with technical and legal requirements.

Getir

UX Writer

Istanbul, Turkey

Dec. 2021 – Feb. 2023

- **Impact-Motivated Craft:** Motivated by product excellence, created clear, concise UI text for GetirFood and GetirJobs, making strategic decisions based on metrics and user journey mapping
- **Conversational Enablement:** Deliver self-service writing resources, including voice and tone guidance, word lists, and CX scripts for customer agents and chatbots.
- **Product Quality & Audit:** Conduct heuristic evaluations of content, driving specifications that maximise product impact and excellence.

Inofab Health
UX Writer

Istanbul, Turkey
Jun.2021-Dec.2021

- **Collaborative Design:** Acted as a cross-functional problem solver, working with product teams to develop written and visual narrative design solutions
- **Information Architecture:** Ensure content design aligns with the information hierarchy and guidance requirements.
- **Framework & Strategy Development:** Develop voice & tone guidelines, content wireframes, style guides, and communication plans.
- **User Flow Optimisation:** Provide user flow recommendations to support clear, user-centred copy.
- **Stakeholder Management:** Build relationships with stakeholders, developers, marketers, and clinical health experts.
